

# SIGNALLING RECORD SOCIETY

Oxford Publishing Company (OPC)  
“An Historical Survey of .....” series  
and other volumes in similar style

In the 1970s and 1980s the OPC published a series of volumes by various authors giving historical notes, station layouts and (usually) a signalbox diagram for various stations. Some later volumes can be considered a logical extension of the series. As there appears to be no comprehensive index to the stations covered, one has been compiled here.
