SIGNAL ALTERATIONS—

READING (NEW JUNCTION)

**SATURDAY 22nd NOVEMBER
TO
TUESDAY 25th NOVEMBER, 1969**

Between 21 00 hours on Saturday 22nd November and 06 00 hours on Tuesday November 25th, or until completion, the Chief Signal and Telecommunications Engineer will be engaged in carrying out the following work:—

A new facing connection will be brought into use as shown on attached sketch.

The point machine will be of the Electro Hydraulic Clamp Lock type and a special key will be kept in Reading Panel for use with emergency hand-operation.

Signal R57 and associated A.W.S. Ramp for the Up Main Line will be repositioned 170 yds. nearer to Reading.

Signal R387 will be repositioned 120 yards towards Reading Spur.

Position lights R575 (leading to Up Main and Signal R577) and R577 (leading to Down Branch), together with Associated routes, R563D and R571D will be taken out of use.

SIGNALLING RECORD SOCIETY

DIGITAL ARCHIVE

This PDF Copy has been provided free of charge by David Allen in order to assist your research into UK signalling.

This file is one of a number scanned by David Allen using material from his own collection and from the collections of Peter Barlow, Phil Deaves, Robert Dey, David Ingham, Simon Lowe, Richard Maund, John McCrickard, John Midcalf, Richard Pulleyn, Roger Newman and Chris Wolstenholmes. Thank you one and all. Many of the original documents are now in the SRS Archive or at the National Railway Museum.

You may also like to provide copies of Signalling Notices and Weekly (and periodical) Operating Notices or other notices as scans or as originals. The SRS is always willing to accept donations of any signalling or signalling related material for inclusion in the Society's Archive. Please contact the [Archivist](#) in the first instance.

For a list of PDFs currently available visit the [Archives](#) pages of the SRS Web Site.

If you have benefited from this PDF copy, why not [join](#) the Signalling Record Society and receive support for your researches and access to the Society's Archives

Members receive "The Signalling Record" six times annually plus a newsletter and have the opportunity to purchase SRS [books](#) and other [publications](#) at a discount. They also have access to back issues of The Newsletter and The Signalling Record which are only available to members. These contain a wealth of information accumulated since 1970, much of which is not readily available anywhere else.

In addition, Members have the opportunity to join signalling related visits to locations on the UK national and London Underground systems; and to other UK Railways.

To join the Signalling Record Society visit

www.s-r-s.org.uk/membform.html

Track circuits will be adjusted accordingly.

During the occupation all signals at the East end of Reading Station will be maintained at Red and brought back into use on completion of the work.

All arrangements for the safe working of the line (including the appointment of Handsignalmen) must be made by the District Inspector in accordance with Rule 77.
