

British Railways (Western Region)

NOTICE TO TRAINCREWS ETC.
of
NEW AND ALTERED SIGNALLING
at

THEALE RECEPTION SIDINGS

From 0001 Saturday 13 April, S&T and Civil Engineering staff will be carrying out the following work, which will be brought into use with effect from 0500 Monday 15 April 1991 (or completion). Please refer also to the diagram on the back of this Notice.

The mechanical lever ground frame will be abolished. A new power- worked ground switch panel, released electrically from Reading signal box, will be provided. It will control the points and slotted signal routes shown on the diagram.

The connection marked 1A- 1B in bold line, previously laid in and secured, will be brought into use. An additional route will be provided from signal R. 499, reading over this new connection towards the No.2 Reception line.

A new position light signal (numbered R. 468) will be provided on the No.1 Reception line to the Reading side of existing connection marked 3A- 3B, facing Down direction movements. Routes will be available from R. 468 along the No.1 Reception line or to the sidings as indicated.

An illuminated board, worded "Stop- Await Instructions" will be provided on the No.2 Reception line as shown, facing Down direction movements, alongside new signal R. 468 referred to above.

New "Stop- Await Instructions" boards (non- illuminated) will be provided at the exits from the ARC Sidings and the C.M.C./ Cripple Sidings as shown.

DIGITAL ARCHIVE

This PDF Copy has been provided free of charge by David Allen in order to assist your research into UK signalling.

This file is one of a number scanned by David Allen using material from his own collection and from the collections of Phil Deaves, Robert Dey, David Ingham, Simon Lowe, John McCrickard, John Midcalf, Roger Newman, Richard Pulleyn and Chris Wolstenholmes. Thank you one and all. Many of the original documents are now in the SRS Archive or at the National Railway Museum.

You may also like to provide copies of Signalling Notices and Weekly (and periodical) Operating Notices as scans or as originals. The SRS is always willing to accept donations of any signalling or signalling related material for inclusion in the Society's Archive. Please contact the [Archivist](#) in the first instance.

For a list of PDFs currently available visit the list of [Weekly](#) Notices or [Signalling](#) Notices page.

If you have benefited from this PDF copy, why not [join](#) the Signalling Record Society and receive support for your researches and access to the Society's Archives

Members receive "The Signalling Record" six times annually plus a newsletter and have the opportunity to purchase SRS [books](#) and other [publications](#) at a discount. They also have access to back issues of The Newsletter and The Signalling Record which are only available to members. These contain a wealth of information accumulated since 1970, much of which is not readily available anywhere else.

In addition, Members have the opportunity to join signalling related visits to locations on the UK national and London Underground systems; and to other UK Railways.
